

## Software that grows as you do

BambooHR is an amazing online HR database that gives you easy access to your employee records and relieves paperwork headaches for businesses like yours.

- Easy to use
- Automates manual HR tasks
- Saves time and money

### Centralize your employee data

BambooHR centralizes your employee data so you can control, sort, and analyze it from anywhere. You have instant access to detailed employee records, documents, benefit info, hiring checklists, and more.

### Streamline your reports

BambooHR reports are easy to read and allow you to make well-informed, more strategic decisions. Plus, use simple drag-and-drop and filtering functions to customize reports in a snap.

### Access your data anywhere

Free yourself from the limitations of file cabinets and office servers. With BambooHR, your information is accessible online, anytime. You can work at the office, on the road, or at home.

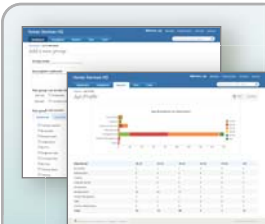

### Save time and money

BambooHR is remarkably affordable—plus it magically eliminates hours of busywork, so you can concentrate on what you do best: finding, hiring, and retaining the best talent for your company.

### BambooHR gives you instant access to:

- Employee files
- Completed training
- Benefit information
- Hiring checklists
- Automated email alerts
- PTO balances
- Customizable reports
- And more

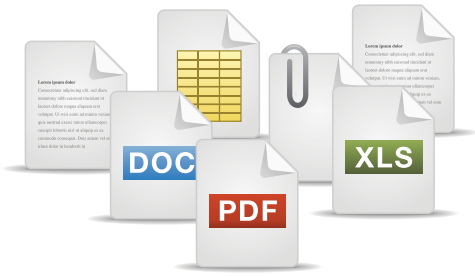

### Try BambooHR FREE for 30 days!

Test drive BambooHR with your own data. It's free for 30 days and signing up is super easy. Visit [www.bamboohr.com](http://www.bamboohr.com)

**“It has helped so much because I’ve been able to get everything organized in one easily accessible place.”**

Capital Community Bank

# How does it work?

1) Gather all your employee data

2) Import into BambooHR

3) Securely access all your data anytime

## Run reports like:

- ✓ Benefit eligibility
