*“Interview scheduling took up so much of our time before – now it's much quicker. For example, we have our daily morning meetings, and before all of us would list scheduling interviews as a task, maybe dedicating one hour of the day to it. Now, no one even mentions scheduling interviews as a task, because it's so quick and simple.”*

*“Even within a month of using Cronofy, we started to see the benefits. It's **so easy to use**, and a lot faster than looking at calendars and sending times back and forth to people. Our team of recruiters and coordinators is **saving 300 hours a month** to spend on higher-value tasks instead.”*

Global Director of TA Ops, YNV Group

*“Our recruiters can now own the end-to-end hiring journey. They can make sure that **candidates are having a great experience**, but are able to do it in a much more seamless way. The fact that **Cronofy integrates with Lever** means they're spending a lot less time on the admin, **everything just works.**”*
