

# The simple, smarter way to automate travel and HR.

Perk and BambooHR make it easy to give employees access to business travel.

With one-way user provisioning from BambooHR to Perk, traveler accounts are automatically created from HR data—so the right people have access from day one.

## Travel and HR workflows, simplified.

### Perk

Book trips, manage policies, and optimize travel spend from one comprehensive platform that fits in your pocket.

- ✓ **Preset policies and automated approvals**  
Cut costs and free up time with integrated policies and customizable approvals you can manage while on the go.
- ✓ **24/7 customer care from anywhere**  
Get expert help and peace of mind with around-the-clock support from real people. Whatever the problem.
- ✓ **Real-time reports and insights**  
Easily access in-depth reporting on travel spend and behaviors—from cancellations to policy compliance—whenever you need it.
- ✓ **Seamless HRIS integrations**  
Link your HR tools and sync data in seconds for easy onboarding, managing, and offboarding.
- ✓ **Flexible bookings, guaranteed refunds**  
Cancel trips and get at least 80% of your money back when you book with FlexiTravel.\*
- ✓ **Pay-as-you-travel**  
Pay only for what you use. No travel, no charge. And never any hidden fees.

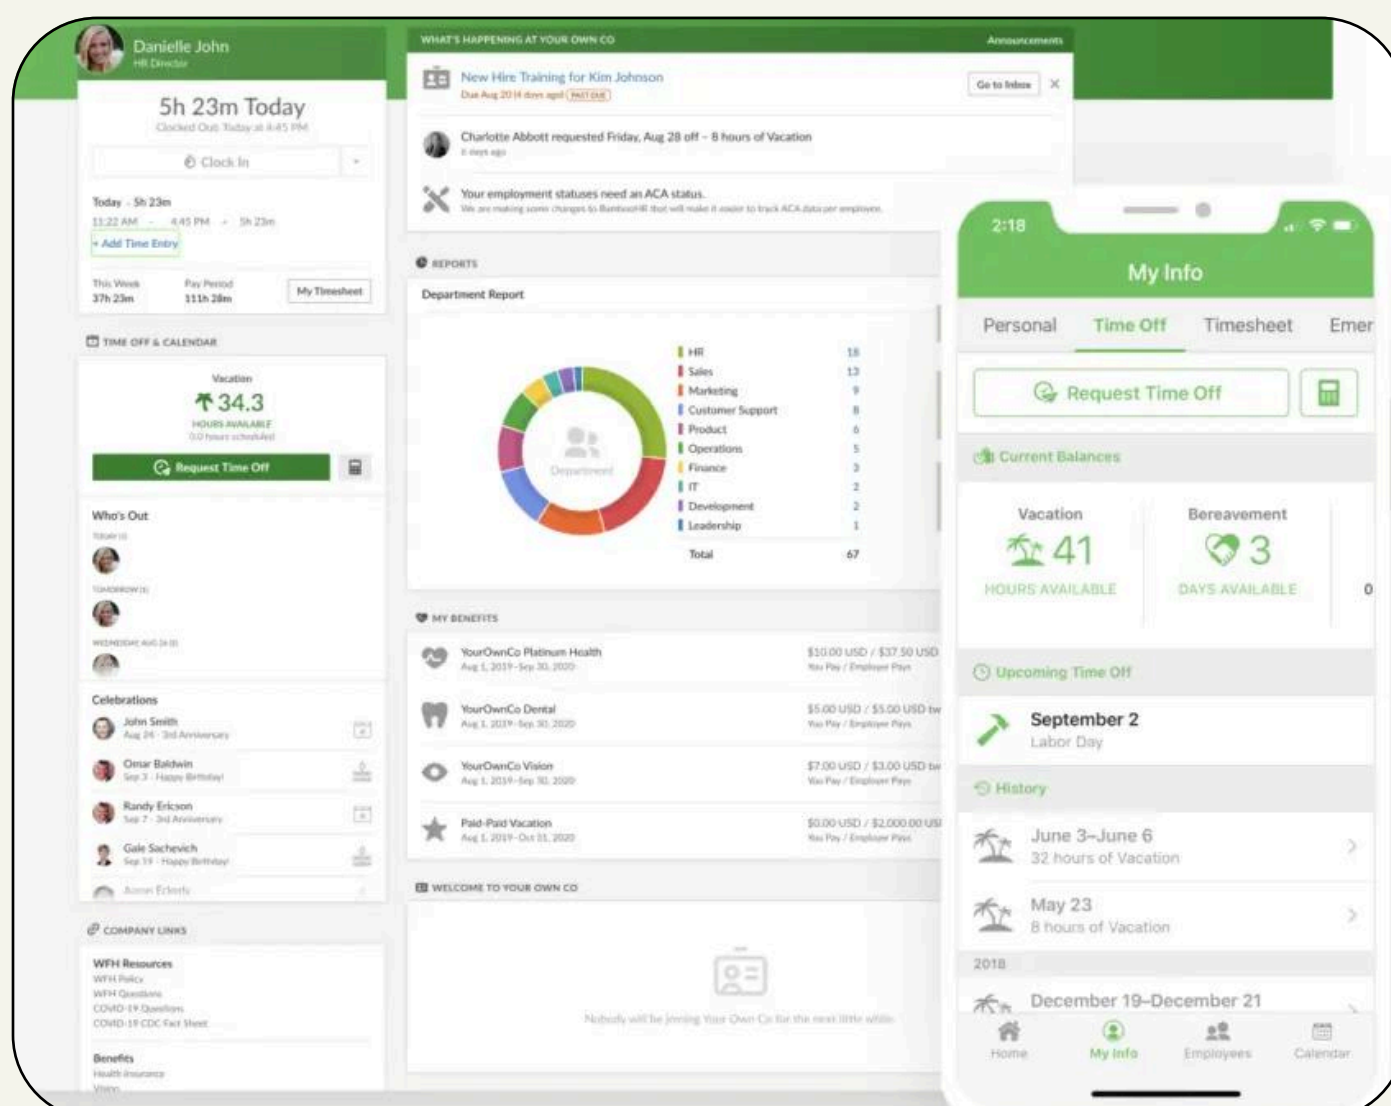

\*FlexiTravel is an additional feature

### BambooHR

BambooHR helps HR teams centralize employee data and streamline access management while maintaining accuracy and control.

- ✓ **Automated onboarding**  
Automate employee onboarding and offboarding by syncing user records from BambooHR into connected systems like Perk—reducing manual setup.
- ✓ **HR data-driven permissions**  
Ensure accurate access based on HR data, including role, department, and employment status, to give the right employees the right tools.
- ✓ **Eliminated data and user duplication**  
Reduce administrative overhead by eliminating duplicate data entry and manual user management across platforms.
- ✓ **Employee data stays current**  
Maintain clean, up-to-date records as employee changes in BambooHR are reflected automatically in downstream tools.
- ✓ **Enhanced data compliance**  
Improve security and compliance with consistent access control driven by your system of record for HR.

Our partnership saves you time by seamlessly syncing together your HR and travel tools.

Sync your HR data.  
Automate admin.

## Benefits of Perk + Bamboo integration

### Streamlined onboarding & offboarding

HR automatically provisions and removes employee access to Perk using BambooHR data—reducing manual work and ensuring clean transitions.

### Accurate workforce visibility.

Keep travel access aligned with your active workforce, helping HR and finance stay in sync on who can book business travel.

### Stronger controls & compliance.

Using BambooHR as the system of record helps finance maintain tighter access controls and supports audit-ready travel governance.
