checkr | **bambooHR**

Streamline your background checks

At Checkr, we're committed to helping you hire more efficiently. We're constantly looking for new ways to simplify the hiring process and reduce time-to-hire. Use Checkr for background checks inside BambooHR.

Built for SMBs

- **Checkr integrates directly into BambooHR** to make your screening process simple and reliable so you can hire great people quickly while maintaining compliance, trust, and safety.

- Select a background check package, order a background check, view the ETA, and see the background check results, **all from within the BambooHR platform**.

- Candidate background checks statuses are **automatically shared and updated** directly in your BambooHR account.

84%

of Checkr background check reports complete within 15 minutes

95%

of Checkr background check reports complete within 24 hours

1.5M

Checkr background check reports are processed each month

> "With Checkr, the fastest I've seen someone sign up, run a check, and get cleared with a badge was 8 minutes. This flexibility doesn't exist anywhere else."

PRODUCT MANAGER OF INTEGRATIONS, FIELD NATION

How Checkr works

✓ **Disclosure and authorization forms**

Put the right legal notices in front of your candidates to comply with local, state, and federal laws.

✓ **Adverse action**

Conduct individualized assessments to comply with laws, for example, in Los Angeles and New York City and automatically send required notices when you choose not to engage with a candidate.

✓ **Compliance engine**

Only show the information that you want your team to see, based on local, state, and federal laws.

✓ **Candidate support**

Candidates have access to Checkr's self-serve candidate portal and U.S.-based support team for assistance with their background check.

✓ **Facilitated adjudication**

Fill roles faster while maintaining compliance. Leverage technology to identify upfront what records matter for your open roles and suppress irrelevant records.
